
Home Center 2

FIBARO SYSTEM

Your home, your imagination

What Home Center 2 is ?

Home Center 2 is a consumer electronics device used for home automation. Home Center 2 gateway communicates with electronic sensors and devices located throughout home using wireless and wired communications and connects to central portal server using existing broadband connection (Cable or DSL).

Internal Z-Wave interface module allows user to control Z-Wave sensors, appliance controls and automation devices.

Home Center 2 integrates multiple complicated control, automation and internet protocols into one simple plug'n'play device. It provides a clear, consistent interface that allows user to manage home easily, whether at home, office or using mobile phone on the road.

Distinctive features

- Extremely efficient hardware architecture = fastest device of the type in the World,
- Ultra low energy consumption,
- Remote access via web page or mobile phone,
- Simple, user friendly interface,
- Fast and simple configuration,
- Geo localization – tracking Your family members,
- SMS notification,
- Manageable users' rights,
- Various devices' associations,
- Conditioning scenes depending on weather or other, user-defined variables,
- Advanced recovery system,
- System backup is always saved on attached pen drive, hidden in the casing,
- History of events.

Technical Specification

Intel Atom 1,6Ghz Processor

Thanks to its' efficiency, Home Center 2 is much, much faster than other Z-Wave gateways, currently available in the World.

1GB RAM, 2GB SLC Hard Drive

Large memory + fast processor = quick communication between Fibaro System devices. Hardware architecture used in Home Center 2 makes Z-Wave based home automation system work much faster then ever.

4GB MLC Recovery Disc

Significantly improved user safety thanks to Fibar Group own approach to data protection. Each Home Center 2 has its' own Recovery disc, holding system backup, unique to each gateway. This closes each system completely from unauthorized access. Other advantage of this solution is quick and simple system healing after any failure.

The looks

We have put huge emphasis on Home Center 2 looks. Unlike most similar devices, ours is made of solid aluminium. There is no cheap looking plastic in it!

Home Center 2
FIBARO SYSTEM

 **Polski**
